Specimen Creek

Specimen Creek Southern Gallatin 2/20/2021 Code SS-N-R2-D1-O Elevation 8200 Aspect SE Latitude 45.02650 Longitude -111.04800 Notes

From obs: "Observed 2 natural avalanches, both on the basal persistent layer I would guess. one maybe a week old, partially filled in (SS-N-D1R2-O), and one that ran in the last 24 hrs (SS-N-D1.5R2-O) on a SE <u>aspect</u>, 35 deg at 8200 ft. I thought it was interesting given the lack of new snow and seeming lack of strong winds in this area. 2/5 ECTs had <u>propagation</u>, we had two large collapses."
